
Our Vision

Gaudenzia's vision is a future where all individuals confronting substance use and mental health challenges find the assistance they need to lead healthier, more fulfilling lives.

Learn More

What is Substance Use Disorder?

Substance use disorder (SUD) is a treatable mental disorder that affects a person's brain and behavior, leading to their inability to control their use of substances like legal or illegal drugs, alcohol, or medications. Symptoms can be moderate to severe, with addiction being the most severe form of SUD.

People with a SUD may also have other mental health disorders, and people with mental health disorders may also struggle with substance use. These other mental health disorders can include anxiety disorders, depression, attention-deficit hyperactivity disorder (ADHD), bipolar disorder, personality disorders, and schizophrenia, among others

Looking for Help?

We treat people with Substance Use Disorder, offering help and hope to you and your loved ones.

Our Mission and Vision

Gaudenzia's mission is to promote long-term recovery by providing comprehensive treatment and support to people with substance use disorder, co-occurring mental health disorders, and related conditions, regardless of individual circumstances.

Gaudenzia's vision is a future where all individuals confronting substance use and mental health challenges find the assistance they need to lead healthier, more fulfilling lives.

Gaudenzia's Treatment Model

No matter your circumstance, we'll work to find a treatment path that's right for you. Gaudenzia's Treatment Model incorporates evidence-based, person-centered therapeutic approaches to deliver care that is gender-responsive, trauma-informed, and culture-informed. Whether you need help navigating substance use disorder, an HIV/AIDS diagnosis, or a co-occurring mental health disorder, we'll do whatever it takes to help you recover your life.
