

A career planning tool for chemical scientists

Assess Yourself

Identify your skills and values.

Strengthen Your Skills

Increase your marketability.

Set Goals

Chart a path forward.

Explore Careers

Scope out your career options.

UPCOMING EVENTS

ACS Fall 2025

Aug 17 - 21, 2025 8:00 am - 2:00 pm ET | [ADD TO MY GOALS](#)

WHAT IS CHEMIDP?

ChemIDP is an Individual Development Plan designed specifically for students and postdoctoral scholars in the chemical sciences. Through immersive, self-paced activities, users explore potential careers, determine specific skills needed for success, and develop plans to achieve professional goals. ChemIDP tracks user progress and input, providing tips and strategies to complete goals and guide career exploration.

We value your feedback. Send your comments, suggestions, and questions to ChemIDP@acs.org.

The development of ChemIDP has been supported by the National Science Foundation Innovation Corps Teams Program (grant IIP-1514274) and a special allocation from the ACS Board of Directors. Built on Drupal by Taoti Creative. Copyright © 2023 American Chemical Society. All Rights Reserved. Read our [privacy policy/legal terms](#).
